

Umesh Gorfad

Agentic Full-Stack Developer | AI-Driven

+91 9924992637

- gorfadumesh1213@gmail.com
- Surat, Gujarat, India
- linkedin.com/in/gorfad-umesh

Full-Stack Developer with **5+ years** shipping production applications using **React, Next.js, Node.js, and NestJS**. Built products for enterprise clients and funded startups, scaling apps to **80K+ active users**. Specializing in **AI-augmented development** with Claude Code, Cursor, and agentic workflows to deliver at **2-3x velocity**.

EXPERIENCE

- Agentic Full-Stack Developer

UnitPay — Monetization Engine for AI-Native Companies

React, TypeScript, Node.js, NestJS, PostgreSQL, Claude Code, MCP Protocol, AWS

- Building the complete monetization platform for AI-native SaaS using **agentic development workflows** with Claude Code CLI and Cursor
 - Architecting features with **spec-driven development** — systems-level thinking, context management, and token-efficient design
 - Implementing **Stripe Connect** infrastructure for multi-party billing and usage-based pricing models
 - Leveraging **MCP Protocol** for AI-driven UI engineering and automated visual regression testing

Mar 2025 – Present
- React Developer

xR Studio LLP

React 18, TypeScript, Next.js 14, Redux Toolkit, TailwindCSS, WebSockets, AWS

- Architected financial dashboards processing **\$3M+ in daily transactions** with 99.9% uptime
 - Built real-time collaboration features serving **50K+ concurrent users** via WebSockets
 - Reduced application load time by **73%** through code splitting and performance optimization
 - Integrated **GPT-4 and Claude APIs** with custom ML models into production features
 - Mentored **3 junior developers**, accelerating team velocity by 40%

Jun 2023 – Dec 2024
- React Developer

Webcubic Technologies

React, TypeScript, Redux, Material-UI, GraphQL, Jest

- Shipped **8 production applications** end-to-end across fintech, healthtech, and e-commerce
 - Built startup MVP in 8 weeks that secured **\$2M Series A** funding
 - Created enterprise component library reused across **12+ projects**, cutting dev time by 35%
 - Achieved **95+ Lighthouse scores** on all PWA projects; reduced bug reports by 70%

Nov 2021 – May 2023
- Frontend Developer

JarvioT Technologies (Intern → Full-time in 5 months)

React, JavaScript ES6+, SASS, Redux, REST APIs, Webpack

- Built **15+ high-converting landing pages** performing 12% above industry average
 - Developed admin dashboards managing **100K+ records**; reduced bundle sizes by 60%
 - Promoted from intern to full-time in **5 months**; received "Rising Star" award

Oct 2020 – Oct 2021

KEY PROJECTS

- Assessment Automation Platform (EdTech)

Lead Developer

Next.js, NestJS, FastAPI, MongoDB, AWS, Docker, Stripe

- Led full-stack development of automated assessment platform with OMR scanning and real-time grading
 - Saved tutors **4+ hours daily** through intelligent automation; integrated Stripe for billing
- Wolfpack — Real-Time Trading Platform (Fintech)

Frontend Developer

React.js, Redux, Material-UI, ApexCharts, WebSocket APIs

- Built trading platform with live market data, dynamic charts, and lending workflows for Dun & Bradstreet
- Nilo — Health Gamification App

Frontend Developer

React.js, Tailwind CSS, Firebase, Chart.js

- Built gamified health tracking with real-time Firebase sync, animated dashboards, and engagement-driven UI
- MonkeyBox — Meal Delivery Platform

Frontend Developer

React.js, Redux, Material-UI, REST APIs

- Developed customer portal + admin panel for school tiffin delivery with order management dashboards

TECHNICAL SKILLS

AI & AGENTIC

- Claude Code
- Cursor AI
- Copilot
- MCP Protocol
- GPT-4 API

FRONTEND

- React 18
- Next.js
- TypeScript
- Redux
- Tailwind
- MUI

BACKEND

- Node.js
- NestJS
- Express
- FastAPI
- GraphQL
- WebSockets

DATABASE

- PostgreSQL
- MongoDB
- Firebase

DEVOPS

- AWS
- Docker
- CI/CD
- Vercel
- Git

TESTING & PAYMENTS

- Jest
- Playwright
- Stripe Connect

EDUCATION

Bachelor of Commerce
BKNMU, Junagadh
2017 – 2020

STRENGTHS

- AI-First Development**
Agentic workflows for 2-3x delivery speed
- Ship Fast**
Concept to production in weeks
- Mentorship**
Grew juniors into senior engineers
- Full Ownership**
End-to-end: design to deploy
